

A romantic wedding scene at sunset. A bride and groom are standing under a large, ornate archway decorated with white and pink flowers and greenery. The bride is wearing a white wedding dress and holding a bouquet of pink and white flowers. The groom is wearing a white shirt, a brown vest, and a red bow tie. They are looking at each other and about to kiss. The background shows the ocean and a bright sunset sky with warm, golden light. The archway is made of white fabric and is heavily decorated with flowers.

Luminous photos & videos for the elegant & romantic bride

Dear brides,

First of all, congratulations on your engagement!

You are planning your wedding for the first time, and you want to make it perfect.

But let's be honest. Wedding planning is not easy. In fact, you may feel overwhelmed and frustrated or even scared to make a wrong, costly decision and receive photos you won't like.

To plan a picture-perfect wedding is not easy

At the end of the day, all you want is to have beautiful memories of your wedding which everyone will remember. And I understand how stressful it can be.

The truth is, you should enjoy your wedding planning journey, and you shouldn't stress about it.

You've never planned a wedding before. But we - wedding professionals did. And that's why I would like to guide you through the process.

Hello, my name is Veronika

I'm a fine art photographer documenting UK & destination weddings.

I create unique photographs & videos with an artistic touch so you can feel proud of your memories, and they won't be forgotten.

My Style

I believe that the best photography is not posed, but when you forget there is a camera around and you can be yourself.

I capture the real in-between moments, such as the genuine connection between the couple and emotions when people laugh, smile or have tears in their eyes.

My Promise to You

Feel proud of your wedding:

Receive a unique collection of photographs with an artistic touch, which everyone will talk about. Your photos & video will be beautifully edited to my signature film look.

Beautiful memories for a lifetime:

Your memories will be beautifully captured & treasured in your stunning wedding album, as your first family heirloom, which is a part of all wedding packages.

Individual attention:

Many photographers promise to deliver an excellent service, but I really mean it. That's why I accept only up to 4 weddings per month to serve each of my couples with the care they deserve.

I can help you to avoid:

Photos you won't like:

When photographing, I look only for the most flattering angles for you. And each of your photographs is carefully selected and then professionally retouched to my highest standards.

Looking awkward:

You may feel shy or have no experience in front of a camera. But that's OK. It's my responsibility to guide you through the process. I provide a free engagement session with all wedding packages, so you become more comfortable before your wedding.

Dealing with troubles:

You don't have to worry whether your photographer has a backup plan or liability insurance if something goes wrong. With me, you can have peace of mind because I have it all covered for you.

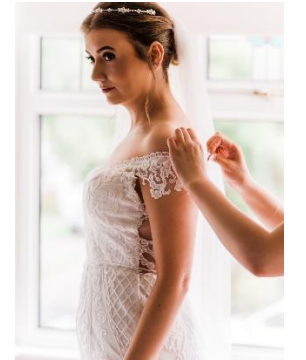

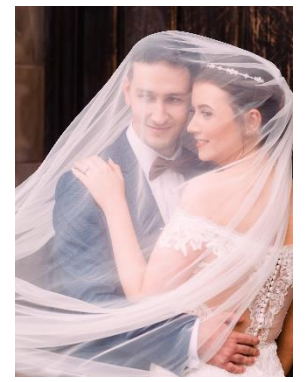

*The photos that have come from
her from the day are stunning. We couldn't
be happier with them, and I would
recommend this talented lady
a thousand times over!*

*Such a friendly person and so skilled, thank
you so much for being a part of our day
and capturing our memories for life.xxx*

*Absolutely brilliant photos,
we are so happy with them.
Thanks for making our day
so special, we are so grateful
for all your hard work.
Thank you, Veronika!*

Your Investment

Many people see wedding photography as another necessary cost. However, I believe it's an investment.

You will probably spend a significant amount of time, effort and money to make your wedding perfect. In the end, after your flowers fade and the last piece of cake is eaten, all you will have left to remember this day will be your photos and videos.

Your investment in professional photography means you won't miss out on capturing your lifetime memories. Imagine your family having tears when viewing your wedding album in 10 years time.

These memories are priceless, and it would be such a loss not getting them right.

If a picture is worth a thousand words, imagine the power of video
